Technical: Python, AI Automation, Web Application Development, GitHub, HTML/Web Publishing

Design & Tools: Canva, Adobe Illustrator, Adobe Photoshop, Figma, Project Management

Soft Skills: Leadership, Business Development, Problem Solving, Time Management, Cross-cultural Communication, Client Relationship Management

PROFESSIONAL EXPERIENCE

Compile and Commit Pvt. Ltd.

Oct 2025 – Present

Founder & Chief Executive Officer

- Founded and incorporated a private limited technology company, independently managing legal registration, compliance documentation, and all regulatory requirements.
- Established full business infrastructure including corporate banking, registered office, and official documentation such as letterhead and board resolutions.
- Built and led a team across four service verticals, overseeing hiring, task delegation, and day-to-day operational coordination.
- Led end-to-end delivery of client software and web development projects, handling requirements gathering, project management, and quality assurance.
- Designed and deployed AI automation solutions, identifying workflow inefficiencies and implementing intelligent systems to improve client productivity.
- Delivered digital marketing services including SEO strategy, content planning, and multi-channel campaign execution across Google and social platforms.
- Provided IT consulting on technology adoption, system improvements, and digital transformation strategy.
- Owned all business development — client acquisition, proposal writing, service pricing, and contract negotiation across all verticals.

Megatech Group Pvt. Ltd.

Jul 2025 – Present

Marketing Specialist & Digital Marketing Analyst

- Lead development and execution of integrated digital marketing strategies across Google, social media, and e-commerce channels.
- Analyze Google Analytics, Google Business Profile, and SEO reports to assess performance and drive data-backed decisions.
- Manage company websites — content, optimized visuals, and user engagement — alongside Daraz Seller Center operations (listing optimization, pricing, orders, promotions).
- Design and execute content strategies across Facebook, Instagram, LinkedIn, and TikTok to grow engagement and brand awareness.

- Played a key role in planning and managing major national events: the NAIMA Nepal Automobility and NADA Auto Show 2025, coordinating marketing, branding, and on-ground engagement to strengthen company visibility.
- Collaborate across sales, IT, and creative teams; produce promotional creatives using Illustrator, Photoshop, Canva and coordinate vendor procurement.

Key Achievements

- Increased website traffic by **50%** in 6 months through SEO optimization and content strategy refinement.
- Boosted Google Business Profile reach by **40%**, enhancing brand visibility and customer engagement.
- Improved Daraz sales by **15%** via data-driven listing optimization and campaign management.

MAX International

Oct 2023 – Jun 2025

Digital Marketing Analyst

- Managed and optimized digital marketing campaigns across multiple platforms, improving engagement and conversion performance.
- Monitored key metrics in Google Analytics and performance dashboards to evaluate ROI and campaign effectiveness.
- Conducted market and competitor research to identify emerging trends and support strategic initiatives.
- Enhanced website performance and UX through continuous testing, content updates, and SEO improvements.
- Analyzed sales and customer behavior data to improve targeting; prepared weekly and monthly performance reports with growth recommendations.

Tapasya Business Management

Dec 2022 – Jun 2023

Audit Intern

- Conducted financial audits for 15+ clients and reconciled financial statements, reducing reporting errors by ~15%.
- Supported tax documentation for 8+ small businesses, contributing to a 90%+ on-time filing rate, and collaborated with senior auditors on 3 major projects.

PROJECTS & PORTFOLIO

- **Tap&Book** — Designed and built a web application for online booking and scheduling, covering front-end interface, functionality, and deployment.
- **Analytics Dashboard** — Developed an interactive data dashboard to visualize key performance metrics and support data-driven decision-making.
- **Sector Analysis of Microfinance in NEPSE** — Academic research project analyzing the microfinance sector of the Nepal Stock Exchange.
